In the Claims

Please amend the claims as follows:

Please replace claim 43 with the following rewritten claim:

43. (Amended) A combination multiple warning signal light system and motorized vehicle, the warning signal light system comprising:

- a) a plurality of light supports engaged to the vehicle, each of the plurality of light supports having a first visible exterior surface;
- b) one or more light emitting diodes disposed about and attached to the first visible exterior surface of each of the plurality of light supports; and
- c) at least one controller in electric communication with the light emitting diodes, the controller constructed and arranged to activate the light emitting diodes thereby producing more than two different types of visually distinct warning light signals,
